

# Jamaican Patois Quick Start Guide

Thank You for your purchase. This guide will get you started learning patois by providing quick instructions and what I think is the best way to get the most out of this course.

The course is separated into 3 Levels

The first two levels each have 16 Lessons and the 3<sup>rd</sup> and Final has 10 lessons

Each lesson is about 5 minutes so it should be easy to digest for you

In each lesson first Jamaican patois is spoken and then the English version is said so you know what the patois means. You should try to practice what is being said as you go along to improve your accent.

If you need any more help or need to get a refund or need to say anything , question, comments about the course or the website please email [admin@growingupjamaican.com](mailto:admin@growingupjamaican.com)

That is all you need so goodluck!
